

**PRESS RELEASE**

Date: April 2, 2012

For Immediate Release

**JETNET Announces Mac Compatibility For Subscribers**

UTICA, NY – JETNET LLC, the leading provider of corporate aviation information, has announced that their product line is now compatible with all Mac computers, and compatible with all browsers and web enabled devices. The new compatibilities and login protocols for their full suite of search products has taken effect, and all users have been ported over without interruption of service or additional cost.

The company, which just released a new Commercial Airliner service, has also made their software iPad-compatible and offers a mobile service. The moves signal the growing use of mobile and portable devices among aviation professionals, and users' desire for their services to be accessible on multiple platforms and browsers. "We now give our customers access from any PC or Mac device, from any location," said Paul Cardarelli, JETNET Director of Sales and Marketing, "We know they can't afford to be slowed down by technology, and need every marketplace advantage we can give them."

For more than 20 years, JETNET has delivered the most comprehensive and reliable business and commercial aircraft research to its exclusive clientele of aviation professionals worldwide. JETNET is the ultimate source for fleet and marketplace information and intelligence. The company offers services for aviation professionals over the full spectrum of business and commercial aviation, including business jets and turboprops; fixed wing and helicopter aircraft; and commercial airliners; as well as management and networking tools for business aviation professionals and executives. Headquartered in its state-of-the-art facility in Utica, NY, JETNET provides multichannel access to real-time, user-friendly, comprehensive aircraft data.
